## Drug Utilization Review

AvMed conducts drug utilization reviews for all of our members to make sure that they are getting safe and appropriate care. These reviews are especially important for members who have more than one doctor who prescribe their medications. We conduct drug utilization reviews each time you fill a prescription and on a regular basis by reviewing our records. During these reviews, we look for medication problems such as:

- Possible medication errors.
- Duplicate drugs that are unnecessary because you are taking another drug to treat the same medical condition.
- Drugs which are inappropriate because of your age or gender.
- Possible harmful interactions between drugs you are taking.
- Drug allergies.
- Drug dosage errors.

If we identify a medication problem during our drug utilization review, we will work with your doctor to correct the problem
