Initial Authorization: 12 months

- ❑ Member must have diagnosis of peanut allergy
- ❑ Member must be at least 4-17 years of age at initiation of therapy
- ❑ Prescribed by or in consultation with an Allergist or Immunologist

(Continued on next page)

- ❑ Provider has submitted documentation to confirm diagnosis of peanut allergy via **ONE** of the following:
  - ❑ Member has a diagnosis and clinical history of peanut allergy as documented by **BOTH** of the following **(must submit labs and skin prick test results for documentation)**:
    - ❑ A serum peanut-specific IgE level of ≥ 0.35 kUA/L
    - ❑ A mean wheal diameter that is at least 3 mm larger than the negative control on skin prick test for peanut
  - ❑ In the absence of positive clinician supervised food challenge, peanut allergy is confirmed by the **BOTH** of the following:
    - ❑ Positive skin prick test to peanut ≥ 8 mm compared to control, unless skin testing is contraindicated
    - ❑ Serum IgE to peanut ≥ 14 kUA/L
- ❑ Palforzia will be used in conjunction with a peanut-avoidance dietMember must be prescribed injectable epinephrine **(verified by chart notes or pharmacy paid claims)**
- ❑ Member and/or caregiver has been instructed and trained on the appropriate use of injectable epinephrine
- ❑ Health care provider, health care setting, and member **MUST** be enrolled in the Palforzia REMS program
- ❑ Request for Palforzia may **NOT** be approved if member has **ANY** of the following:
  - Severe or poorly controlled asthma
  - History of eosinophilic esophagitis or other eosinophilic gastrointestinal disease
  - History of severe or life-threatening episodes of anaphylaxis or anaphylactic shock within the past 2 months
  - History of mast cell disorder (including mastocytosis), urticarial pigmentosa, hereditary or idiopathic angioedema or currently has paid claims for Berinert, Cinryze, Haegarda, Firazyr, Takhyzyro or Ruconest
  - Individual is in buildup phase of immunotherapy to another allergen (i.e. has not reached maintenance dosing)

Reauthorization: Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

Provider please note: a one-time reauthorization is required after initial 12 month approval

- ❑ Member must continue to tolerate the prescribed daily dose of Palforzia®
- ❑ Member is compliant with Palforzia® therapy **(verified by pharmacy paid claims)**
- ❑ Member has **NOT** experienced recurrent asthma exacerbations
- ❑ Member has **NOT** experienced any treatment-restricting adverse effects (e.g., repeated systemic allergic reaction and/or severe anaphylaxis)
