

AvMed

MEDICAL PRIOR AUTHORIZATION/STEP-EDIT REQUEST*

Directions: The prescribing physician must sign and clearly print name (preprinted stamps not valid) on this request. All other information may be filled in by office staff; **fax to 1-877-535-1391**. No additional phone calls will be necessary if all information (including phone and fax #s) on this form is correct. **If information provided is not complete, correct, or legible, authorization can be delayed.**

For Medicare Members: Medicare Coverage for outpatient (Part B) drugs is outlined in the Medicare Benefit Policy Manual (Pub. 100-2), Chapter 15, §50 Drugs and Biologicals. In addition, National Coverage Determination (NCD) and Local Coverage Determinations (LCDs) may exist and compliance with these policies is required where applicable. They can be found at: <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>. Additional indications may be covered at the discretion of the health plan.

Calcitonin Gene-Related Peptide (CGRP) Antagonists

Drug Requested: Vyepi™ (eptinezumab) Intravenous (IV) Injection (Medical) (J3032)

MEMBER & PRESCRIBER INFORMATION: Authorization may be delayed if incomplete.

Member Name: _____

Member AvMed #: _____ Date of Birth: _____

Prescriber Name: _____

Prescriber Signature: _____ Date: _____

Office Contact Name: _____

Phone Number: _____ Fax Number: _____

NPI #: _____

DRUG INFORMATION: Authorization may be delayed if incomplete.

Drug Name/Form/Strength: _____

Dosing Schedule: _____ Length of Therapy: _____

Diagnosis: _____ ICD Code, if applicable: _____

Weight (if applicable): _____ Date weight obtained: _____

- Standard Review. In checking this box, the timeframe does not jeopardize the life or health of the member or the member's ability to regain maximum function and would not subject the member to severe pain.

Recommended Dosage: 100 mg intravenously every 3 months; individuals who may not respond to 100 mg may be approved for 3 vials (300 mg) every 3 months.

(Continued on next page)

CLINICAL CRITERIA: Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

Initial Authorization: 6 months

- Member must be 18 years of age or older
- Prescribing physician is or has consulted with a neurologist or pain specialist

DIAGNOSIS: Please check one of the applicable diagnoses below

Episodic Migraine. Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

- Member must have a diagnosis of episodic migraines defined by **ALL** the following:
 - Member has < 15 headache days per month **AND** 4 to 14 migraine days per month for a **minimum of 3 months**
 - Member must have failed a **2-month** trial of at least **TWO** migraine prophylactic classes supported by the American Headache Society/American Academy of Neurology treatment guidelines 2012/2015 /2021/2024, Level A and B evidence; ICSI 2013, high quality evidence (**verified by chart notes and/or pharmacy paid claims**):
 - Anticonvulsants (divalproex, valproate, topiramate)
 - Beta blockers (atenolol, metoprolol, nadolol, propranolol, timolol)
 - Antidepressants (amitriptyline, venlafaxine)
 - Angiotensin II receptor blocker (candesartan) ***requires prior authorization***
 - Member must have failed a **2-month** trial of at least **ONE** of the following chronic migraine prophylactic therapies and documented the reason for failing treatment in chart notes (**trial verified by chart notes and/or pharmacy paid claims**):
 - Aimovig[®] (erenumab)
 - Emgality[®] (galcanezumab)
 - Ajovy[®] (fremanezumab)**
 - Nurtec ODT[®] (rimegepant)
 - Qulipta[™] (atogepant)

****NOTE:** Aimovig, Emgality and Ajovy require PA. Member must have tried and failed **BOTH** preferred agents and meet all PA criteria for approval of Ajovy.

(Continued on next page)

Chronic Migraine. Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

- Member must have a diagnosis of chronic migraines defined by **ALL** the following:
 - Member has > 15 headache days per month AND > 8 migraine days per month for a **minimum of 3 months**
 - Member must have failed a **2-month** trial of at least **TWO** migraine prophylactic classes supported by the American Headache Society/American Academy of Neurology treatment guidelines 2012/2015 /2021/2024, Level A and B evidence; ICSI 2013, high quality evidence (**verified by chart notes and/or pharmacy paid claims**):
 - Anticonvulsants (divalproex, valproate, topiramate)
 - Beta blockers (atenolol, metoprolol, nadolol, propranolol, timolol)
 - Antidepressants (amitriptyline, venlafaxine)
 - Angiotensin II receptor blocker (candesartan) ***requires prior authorization***
 - Member must have failed a **2-month** trial of at least **ONE** of the following chronic migraine prophylactic therapies and documented the reason for failing treatment in chart notes (**trial verified by chart notes and/or pharmacy paid claims**):
 - Aimovig[®] (erenumab)
 - Emgality[®] (galcanezumab)
 - Ajovy[®] (fremanezumab)**
 - Nurtec ODT[®] (rimegepant)
 - Qulipta[™] (atogepant)
- **NOTE:** Aimovig, Emgality and Ajovy require PA. Member must have tried and failed **BOTH** preferred agents and meet all PA criteria for approval of Ajovy.

For Both Episodic Migraine and Chronic Migraine: Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

- Member has been evaluated for medication overuse headache (MOH) (defined as headaches occurring greater than or equal to 15 days per month. It develops as a consequence of regular overuse of acute or symptomatic headache medication for more than 3 months)
- Treatment will include a plan to taper off the offending medication if MOH is diagnosed
- Requested medication will **NOT** be used in combination with another injectable CGRP inhibitor (e.g., Aimovig[®], Ajovy[®], Emgality[®]), or an oral CGRP inhibitor indicated for migraine prevention (e.g., Nurtec[®] ODT, Qulipta[™])

(Continued on next page)

- ❑ **Requests for concurrent use of Calcitonin Gene-Related Peptide (CGRP) inhibitors with Botox[®] (onabotulinumtoxinA) for migraine headache prevention (if applicable):** Member must meet **ALL** the following criteria (**verified by chart notes and/or pharmacy paid claims**):
 - ❑ Member must have a diagnosis of Chronic or Episodic Migraine Headache and is continuing to experience ≥ 4 migraine headache days per month after receiving therapy with **ALL** the following criteria:
 - ❑ Member must have failed a **2-month** trial of at least one medication from **TWO** different migraine prophylactic classes supported by the American Headache Society/American Academy of Neurology treatment guidelines 2012/2015/2021/2024, Level A and B evidence: ICSI 2013, high quality evidence:
 - ❑ Anticonvulsants (divalproex, valproate, topiramate)
 - ❑ Beta blockers (atenolol, metoprolol, nadolol, propranolol, timolol)
 - ❑ Antidepressants (amitriptyline, venlafaxine)
 - ❑ Angiotensin II receptor blocker (candesartan) ***requires prior authorization***
 - ❑ Member must meet **ONE** of the following:
 - ❑ Member has had an inadequate response to a **2-month** trial with an injectable CGRP inhibitor (e.g., Aimovig[®], Ajovy[®], Emgality[®]) or an oral CGRP inhibitor indicated for migraine prevention (e.g., Nurtec[®] ODT, Qulipta[™]) ***requires prior authorization***
 - ❑ Member has had an inadequate response to a **6-month** trial (2 injection cycles) of Botox[®] (onabotulinumtoxinA) ***requires prior authorization***

❑ **Reauthorization: 12 months.** Check below all that apply. All criteria must be met for approval. To support each line checked, all documentation, including lab results, diagnostics, and/or chart notes, must be provided or request may be denied.

- ❑ Member continues to meet all initial authorization criteria
- ❑ Member has experienced a positive response to therapy, demonstrated by a reduction in headache frequency and/or intensity
- ❑ Use of acute migraine medications (e.g., NSAIDs, triptans) has decreased since the start of CGRP inhibitor or antagonist therapy
- ❑ Member continues to be monitored for medication overuse headache (MOH)
- ❑ Requested medication will **NOT** be used in combination with another injectable CGRP inhibitor (e.g., Aimovig[®], Ajovy[®], Emgality[®]), or an oral CGRP inhibitor indicated for migraine prevention (e.g., Nurtec[®] ODT, Qulipta[™])
- ❑ **Requests for continuation of concurrent use of Calcitonin Gene-Related Peptide (CGRP) inhibitors with Botox[®] (onabotulinumtoxinA) for migraine headache prevention (if applicable):** Member must meet the following criteria:
 - ❑ Member has experienced further reduction in the overall number of migraine days or reduction in number of severe migraine days per month compared to monotherapy with the initial agent onabotulinumtoxinA (Botox) and a calcitonin gene-related peptide (CGRP) indicated for migraine prevention (**submit documentation**)

Medication being provided by (check box below that applies):

- Location/site of drug administration: _____
NPI or DEA # of administering location: _____

OR

- Specialty Pharmacy – Proprium Rx

For urgent reviews: Practitioner should call AvMed Pre-Authorization Department if they believe a standard review would subject the member to adverse health consequences. AvMed's definition of urgent is a lack of treatment that could seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

*****Use of samples to initiate therapy does not meet step edit/ preauthorization criteria.*****

****Previous therapies will be verified through pharmacy paid claims or submitted chart notes.****
