

## **Provider Compensation Arrangement**

In order to obtain quality service in an efficient manner, AvMed pays its providers using various payment methods, including capitation, per diem, and discount fee-for-service arrangements. As an AvMed member, you are entitled to ask if we have special financial arrangements with our physicians that affect the use of referrals and other services you might need.

Most AvMed members select a primary care physician who provides and coordinates their care. Some new open access benefit designs do not require members to have a primary care physician. AvMed works closely in partnership with each physician to promote member satisfaction and quality of care.

To be an AvMed participating provider, medical professionals and health care facilities must meet rigorous credentials standards. Credentials and references are routinely checked, resulting in a network of the finest providers in Florida with the vast majority being board certified or board eligible in their specialty.

AvMed routinely provides our physicians with practice profile information based on quality of care delivered, patient satisfaction survey results, and outcome measures.
